Dear Families:

As most of you are aware, a child in our school has been affected by meningococcal disease. With permission from her family, we are releasing some additional information about the child. Kennedee is 8 months old and a super fighter. She is doing well in her recovery; however, the disease took part of her left arm and some of her fingers and toes. She will need extensive physical therapy throughout her life and ongoing medical treatments as well as one-on-one care.

Children's Choice would like to help Kennedee and her family by sponsoring a fundraiser in Kennedee's honor, *Kennedee's Kare*. The proceeds from the fundraiser will be given to Kennedee's family to help support her ongoing care.

We will be selling awareness bracelets for \$2.00 each. These will be available in a child size and adult size and will be available for sale in the next few weeks. We have also created an online donation center. If you wish to make a monetary donation to *Kennedee's Kare*, please go to the following website www.giveplanet.com/kennedeeskare and make your contribution. Additionally, the children will be creating a children's cookbook. These will be available for purchase shortly. The cookbook will be dedicated to Kennedee and all the proceeds will be donated to *Kennedee's Kare*.

We sincerely thank you for your generosity and support of *Kennedee's Kare*. Your contribution will help Kennedee continue to fight her courageous fight!

Graciously,

Children's Choice Learning Center
on behalf of Kennedee
